

MIDWEST SCALE, INC.

Quality Manual

Quality Policy Statement

MIDWEST SCALE, INC. is dedicated to providing reliable calibration services for scales and weighing systems that ensure accurate and stable weight and/or parts counting representation in a consistent manner conforming to NIST Handbook 44 while meeting the requirements of ISO/IEC 17025 and to satisfy the needs of the customer, regulatory authorities, or organization providing recognition under a documented system that provides the highest level of quality service and customer satisfaction.

All personnel concerned with calibration activities must familiarize themselves with this Quality documentation and implement these policies and procedures while performing their work. Commitment will be measured through the improvements discussed and implemented during the management review meetings.

The integrity of the QMS will be maintained by all company personnel
